

Where Does TrustCommerce Reduce Risk From Payment Processing?

How Does TrustCommerce Customize Your Epic Integration To Limit Exposure?

Integrate with Epic

FULLY INTEGRATED WITH EPIC EMR

Provides a seamless experience when accepting patient payments (credit card, debit card, & ACH).

Protect Card Present Data

P2P ENCRYPTION, WHY IT'S IMPORTANT

Data is encrypted at the device and is never passed in clear text — swipe, EMV, & key entry.

Secure Online Payments

COMPLIANT, SECURE, AND SEAMLESS

Hosted payment pages keep risky payment data from entering your environment.

Reduce PCI Scope

PROTECT PATIENT CARDHOLDER DATA

Multiple layers of security reduce your PCI footprint and ease your compliance burden.

Safeguard Stored Payments

TOKENIZATION, HOW IT WORKS

Replace cardholder data with a unique identifier known as a token for safe storage.

Healthcare Specialists

SINGLE SOURCE, FULL PAYMENT SUPPORT

HIPAA compliant, supports IAS transactions, FSA debit cards, and HRA cards.
